

How to knot a Mecate correctly:

1. Hold the Bosal with Heel Knot to the right. Now take the end of the tassel of the mecate and put it through the V of the bosal.

2. Wrap it 2-3 times towards the noseband.

How to knot a Mecate correctly:

3. Loop the bosal to form the reins.

4. Make sure that the reins are straight and not twisted wrap.

GB

How to knot a Mecate correctly:

5. Complete the last wrap by putting the end between the rains and the las wrap, pull snug.

6. If you did it correctly, the reins come out above and the end as well as the tassel are on the ground when the bosal is held in this position.
